Percobaan 2 : Program Merubah Isi Variabel melalui Pointer

```c
#include <stdio.h>

main()
{
    int y, x = 87;
    int *px;

    px = &x;
    y = *px;

    printf("Alamat x    = %p\n", &x);
    printf("Isi px      = %p\n", px);
    printf("Isi x       = %d\n", x);
    printf("Nilai yang ditunjuk oleh px = %d\n", *px);
    printf("Nilai y     = %d\n", y);
}
```
